

Script TPI - Customer **AQUISITION** Script

Please read all the below before you confirm the verbal contract.

Metering Advice

- Please be advised that all calls are recorded for training and verification purposes and today's date is _____
- Please only interact with your meters if it is safe to do so.
- If you have a multi-metered Mpan on site, then I must advise you that EDF will bill you the total consumption across all meters and display against only one meter on the bill. Please can you confirm you are happy with this?
- If you have SMART/AMR on site, please be advised the meter might lose SMART functionality so please can you confirm you are happy to submit meter readings to EDF ?
- If SMART/AMR gas usage is higher than 11 SCMH can you confirm you have a separate agreement with a Meter Operator?
- I need to explain that the gas meter has or will require automatic meter readings and National Grid will contact you to install an AMR data-logger to your meter if there isn't already one in place. This will send EDF meter readings remotely.

Existing Contract

- Please can you Verify either that you are not in a fixed term contract, or the date that their current contract ends please?

Micro-Business (if usage is less than 100,000 kWh Electric / 293,000 kWh Gas)

- Please confirm you understand that Watt receive a commission paid by EDF.
- Can you confirm if you have more than 9 employees? Is your annual turnover more than £2mil? (If yes flag as non-micro business).

VAT & Vulnerable Customers

If the supply is used for either a home or a charity YOU will need to complete the VAT declaration form on [edfenergy.com](https://www.edfenergy.com)

If you are classed as a vulnerable, then I must advise you to contact EDF direct to be added to Priority Services Register.

Marketing

Regarding your email, I must advise that you can unsubscribe from marketing via their EDF MyAccount.
